

Vahan Stepanyan

Date of birth:	16/08/1990
Mobile:	+374 98 900846
Address:	Armenia, Yerevan, 42 Charents str., 33 apt.
E-mail:	nop144d@gmail.com

EDUCATION

Yerevan State University Informatics and Applied Mathematics	2013 –	Ph.D
Moscow Institute of Physics and Technology (State University) Control and Applied Mathematics	2011 – 2013	M.S.
Yerevan State University Informatics and Applied Mathematics	2007 – 2011	B.S.

EMPLOYMENT

VMware Inc. Software Developer	2013 – Present
Institute for System Programming of Russian Academy of Sciences R&D Engineer	2011 – 2013
System Programming Lab at Yerevan State University R&D Engineer	2010 – 2011

COMPUTER LITERACY

- *Programming languages:* Pascal/Delphi, C/C++, x86 asm, ARMv7 asm, Bash/Batch, Ruby, Python
- *Libraries/Frameworks:* WinAPI, KOL, STL, Qt, Boost
- *Reverse Engineering:* unpacking, disassembling, debugging, decompiling
- *Optimization skills:* complexity of algorithms, compiler-specific and platform-specific optimizations, profiling, low-level optimizations
- *Computer systems:* PC, Embedded systems, microcontrollers
- *Administration:* Linux (RedHat based and Debian based), Windows (from an earlier version MS-DOS and Win95)
- *Typing skills:* 80 wpm (qwerty)

PROJECTS

Open Source PE format Import Viewer written in x86 asm
PE/ELF-x86/ARM disassembler (not finished yet)

LANGUAGES

Armenian - native, Russian - fluent, English - good

PROFESSIONAL INTERESTS

Low-level and system-programming, reverse engineering, demoscene, information security, hardware, malwares, packers/protectors, operating systems, compilers, optimizations, performance-critical and memory-critical programming, vintage computers
prime numbers, p-adic number system, fractals, data compression algorithms, cryptography
microcontrollers, robotics
